DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 21 September 2006 has been entered. Claims 1, 6-7 and 11-14 are pending. Claims 2-5 and 8-10 have been cancelled.

Allowable Subject Matter

2. Claims 1, 6-7 and 11-14 allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the primary reason for allowance is the inclusion of the limitation that signal preprocessor has the function to cover compensation if the video systems, frame rates, images with different signal-to-noise ratios or interfaces are varied, which is not found singularly or in combination in the prior art. The closest prior

art reference is Lee (US 2003/0098839) which teaches of receiving parameters for determining how many modifications of the gray signal will be performed, with those parameters being temperature data, use input or whether the LCD displays static or moving images, however, Lee does not teach or suggest of compensating if the video systems, frame rates, images with different signal-to-noise ratios or interfaces are varied.

Regarding claim 6, the primary reason for allowance is the inclusion of the limitation of the gray signal modulator comprising a signal preprocessor in which the method for noise reduction satisfies a specific equation presented in the claim, which is not found singularly or in combination in the prior art. The closest prior art references are Lee (US 2003/0098839) and Ham (US 2003/0095090) which each teach of comparing previous and current frames, however, neither teach or suggest of reducing noise using the specific formula presented in this application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
